**URINE CYTOLOGY
(CONTAINER WITH ALCOHOL)**

IMPORTANT

The container has 50° alcohol – don't discard the alcohol, don't drink, don't leave the container unattended for children. Use only the container given by the lab.

The test can be done from Monday to Friday, not on Saturday.

URINE COLLECTION

1. When you get up in the morning, empty bladder into the toilet.
2. Over the next two hours drink a glass of water.
3. At the end of the 2-hour period completely empty your bladder into the container.
4. Make sure the container is full.
5. Collect a sample on three (3) separate mornings following the exact instructions referred to above. It is preferred that each specimen be dropped off at the lab each day. If you dropped the three samples at the third day Keep them in the refrigerator.

Be sure to Identify as I, II, II the containers.
